Introducing

# Billion Token (\$BLL)

Community Token Providing Access to Billion Commerce and NFTs

Billion Token (\$BLL) is a utility token offering its community exclusive NFTs and commerce. All initial 1 Billion tokens have already been minted, 90% handed over to the community on the first day.

We are building Billion (BLL) as a differentiated and iconic brand in the cryptosphere and beyond. The brand stands for exclusivity and community. There are digital (NFTs) being developed under the BLL brand and access is granted through the BLL token.

# Luxury, Art, and Fashion for the MetaVerse

Billion Token introduces affordable digital luxury. We offer a variety of NFT offerings both under the BLL brand and collaboration with other leading brands, artists, musicians, designers, or developers.
